

Beautiful Timetables ”Think Aloud” List of Tasks

1. Find out in which room and venue the Pervasive Parallelism Course is running on Tuesday.
2. Display only courses running in fourth and fifth year from any subject.
3. Display back courses from all years and subjects.
4. Choose a course from the first semester that runs in the third year and is classified as an Artificial Intelligence course. Find out how long it takes to walk from Forrest Hill to its venue.
5. Choose two courses from the second semester that run in third or in fourth year, pin them, and make the timetable to only display those two courses.
6. Choose an additional course to the previous two courses, pin it and, again, make the timetable display only the three chosen courses.
7. Restore all courses and remove all pins.
8. Remove all Monday 9 o'clock lectures from the first semester.
9. Bring the removed courses back.
